

New Product Release

Am/FM Marine Radio with Bluetooth

4th July, 2019

Introducing GME's brand new Compact AM/FM Marine Stereo with Bluetooth, the GR350BT.

Bluetooth streaming now makes it easier than ever to pair your smartphone or tablet, wherever you are on the boat. The GR350BT also offers convenient USB/ AUX inputs and a built-in AM/FM tuner. The GR350BT is designed for quick and easy installation, with the design allowing installation of the unit in existing gauge holes, left vacant by switching from analogue to digital gauges. The GR350BT also features an IP54 Ingress Protection rating, ensuring years of reliable performance in the harsh Australian marine environment.

For those users looking to take their entertainment to the next level, the GR350BT features 4 x 40W speaker outputs, ensuring crisp, clear, stereo sound regardless of the conditions. The GR350BT also features a full color 2.7" TFT LCD display to guarantee a clear, easy-to-use interface, even in bright sunlight.
